

Profile Sports M2 (868 Rebound Mesh) Series

Description

Features a complete built in rebound system to the lower 1.2m section of the panel. Designed for higher intensity, ideal for most games and in a more demanding environment. The M2 Series is based around the Profile HD Twin bar fencing with continuous clamp bar fittings to posts to ensure a safe environment during play.

Benefits

- **Rigidity** – Heavy welded mesh panels combined with horizontal reinforcements and high density mesh to the lower 1.2m guarantee a very high level of rigidity for rebound sports areas.
- **Finish/Life Time** – Starting with Pre-galvanised wire to BS EN 10244-2-2009 Class D, PPC polyester resin powder coating) which gives minimum 10 year life.

Suitable Applications

Schools, Parks, Colleges, Sports & fitness Centres as a higher intensity sports containment area.

Gates

A complete range of Swing Gates and Sliding Gates are available to suit all requirements

Posts, Clampbars & Fixings

Posts are generally specified to suit application requirements. Manufactured from pre-galvanised Rolled Hollow Section & a PPC coating. Metal Clampbar or Fixing clips come with Vandal resistant security fixing. Where stepping is required for sloping sites additional brackets and Security Tech bolt kits are provided for installation on site, giving the system a very high level of rigidity and security to any boundary.
