

Genwork Roll Containers Royal Mail Compatable “U” Frame nesting Roll Container

Saves up to 80% space when nested in returns and when stored.

- Easy and fast to operate: nesting Compactainers are at least 4 times faster than assembling demountable roll cages

A safe logistic unit

- Good stability - castors located in corners
- Easy to handle in a queue
- Improved ergonomics with rounded corner tube frame
- Does not cause Health & Safety hazards because the point of gravity remains in the centre when folded
